UI UX

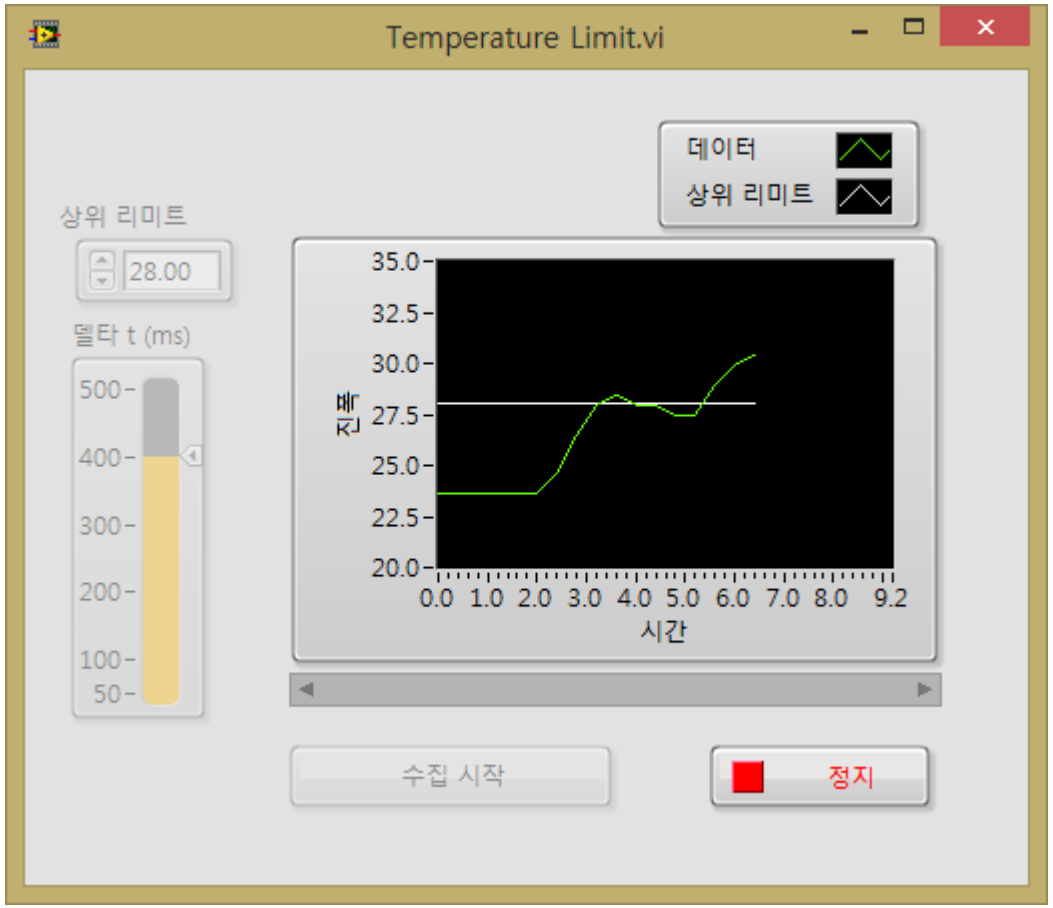

# 易地思之

# 1. Prevent Errors before they happen.

# DEMO : VI SERVER

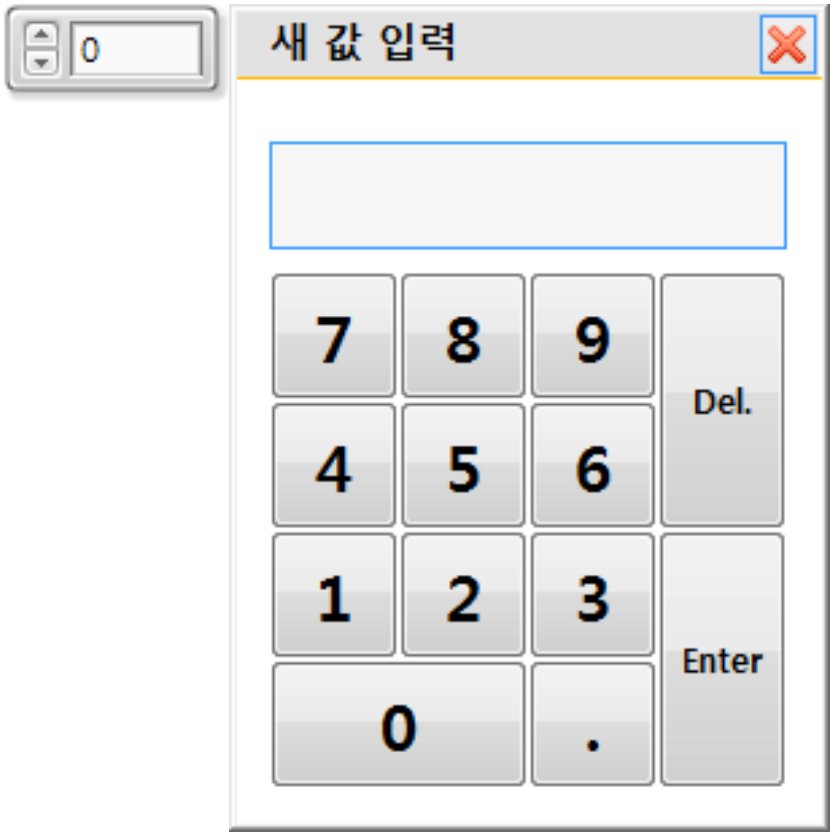

# 2. GO AND SEE THE SITE

# DEMO : 10 KEYS

# 3. EYE TRACKING

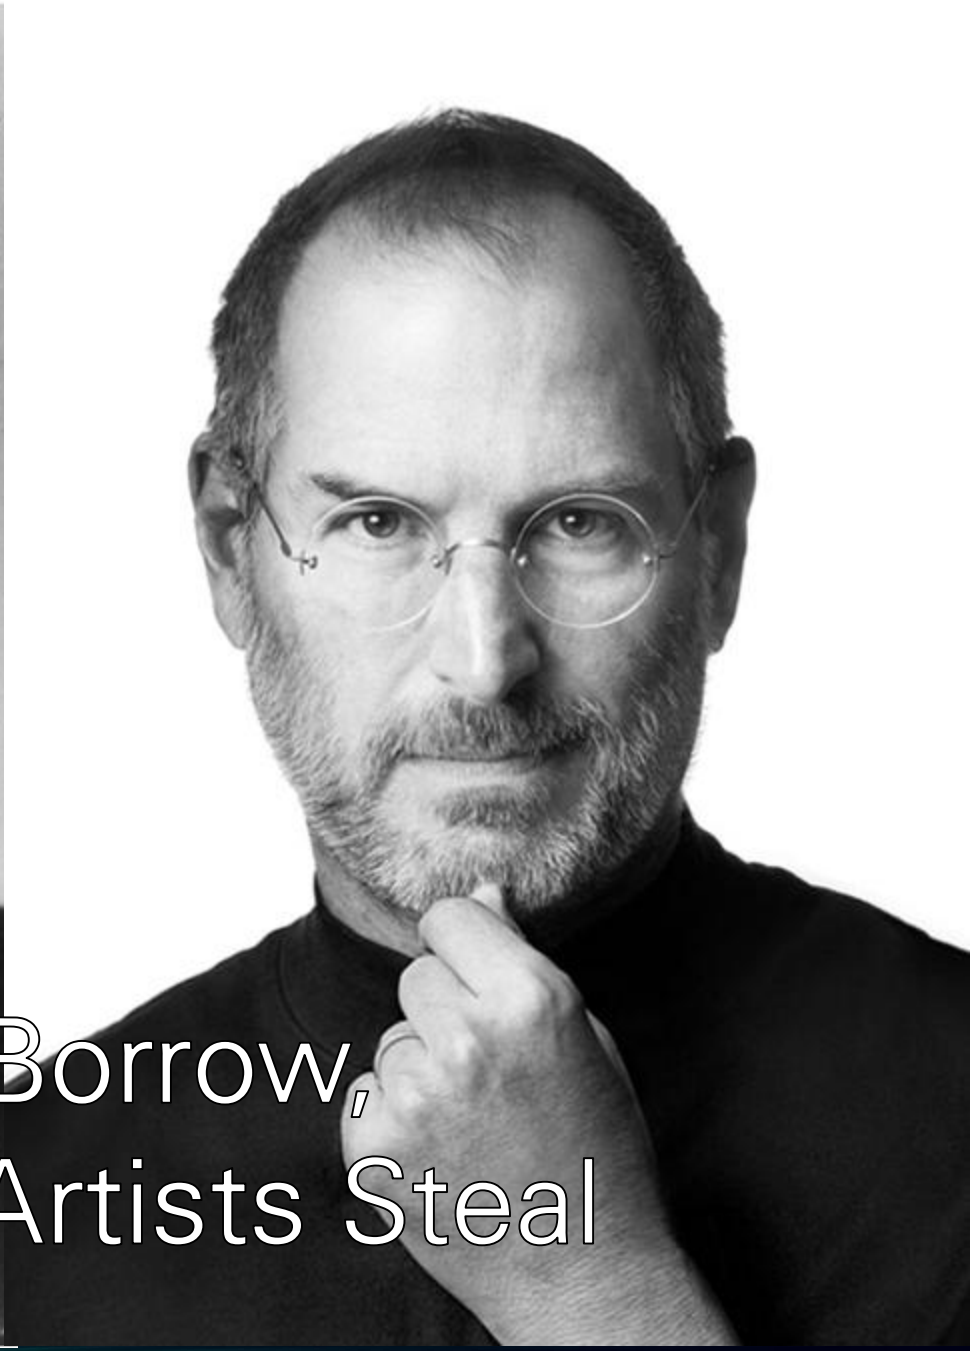

# 23 Actionable Lessons from Eye-Tracking Studies

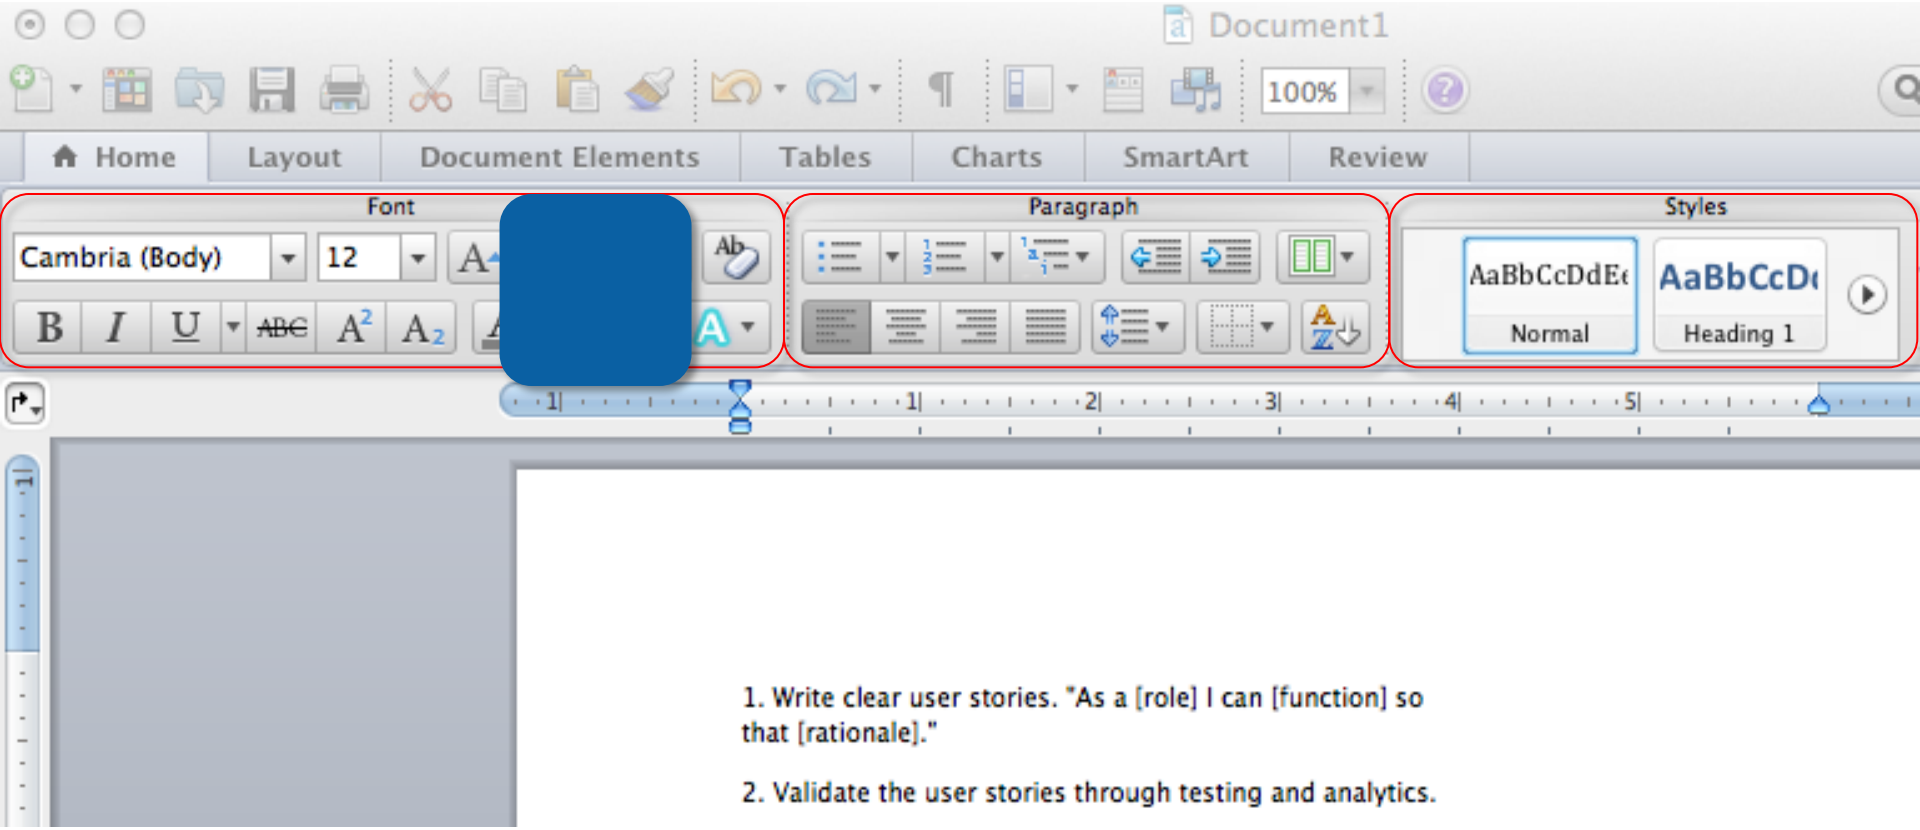

3. **Users initially look at the top left and upper portion of the page before moving down and to the right.** Users were found to generally scan webpages in the shape of an 'F'. Make sure the important elements of your content are located in these key areas to keep readers engaged. Place headlines, subheadlines, bullet points, and highlighted text along these lines so readers will be enticed to read further.

Heading 1
1. Write clear user stories. "As a [role] I can [function] so that [rationale]."
2. Validate the user stories through testing and analytics.
